

Training

Cyclone is a Ministry of Education (MOE) Accredited Professional Learning Development Provider. As a company we meet the high level of expectations around capability and professionalism.

Cyclone has a number of permanent employees who are MOE Accredited Facilitators - all NZ trained teachers who now deliver adult education in their speciality applications and OS areas.

Microsoft, Apple (both iOS and macOS) and Google eco-systems are each supported. With permanent staff, accredited contracted staff and also strategic partnerships with other specialist providers, we are able to offer nation-wide training options for your staff.

Large organisations have used our services to provide on-site training including:

Microsoft:

- SharePoint design, implementation and end user induction
- Teams implementation and end user induction
- OneNote end user induction
- O365 migration and end user induction
- Work place collaboration

Google:

- G Suite for Enterprise
- Work place collaboration
- Chrome Management Console

Apple:

iOS

- O365 end user induction
- Mobility deployment management
- Appropriate application selection, implementation and end user induction
- Apple apps induction
- Work place collaboration

macOS:

- O365 end user induction
- Appropriate application selection, implementation and end user induction
- Apple apps induction
- Working with Windows and Google
- Work place collaboration
