 Student Access

Stream
Applied at 'stevesmith'

Let people stream their meetings. **ON**

Default video quality
Applied at 'stevesmith'

The following options will only apply to the uplink video quality on personal computers

Adjust automatically (default)

Interoperability
Applied at 'stevesmith'

Meet interoperability with other video conferencing systems is offered through a partner product, the Pexip Infinity gateway. Before turning on this feature, make sure you have performed [these steps](#).

To create gateway access tokens, go to [Gateways for interoperability](#).

Turn on interoperability with other systems **OFF**

Video calling
Applied at 'stevesmith'

Let users place video and voice calls. [Learn more](#) **ON**

This can be switched to audio only to turn cameras off by default, students can then turn on if needed

Turn this off to stop students starting a call, they will have to wait for a teacher to start a call
