The year ahead

We feel for all educators with the current challenges and remain committed to assisting the education learning community.

The last couple of years (and it seems this year also) have presented huge challenges around the continuity of teaching and learning. With Cyclone being the largest supplier to the Ministry of Education during 2021, we have provided products and services (PLD and managed services) to every state and integrated school New Zealand wide. This has enabled flexible learning to be well resourced.

Our focus on the education sector continues – across Google, Microsoft and Apple platforms.

This year we have launched a new e-commerce procurement site with a comprehensive and competitive range of products and services, including the unique introduction of STEAM products in association with MTA – including the Lego Learning range.

Please ask us for a quote, assistance with digital planning, digital security, flexible learning or managed services.

We are here to work with you to assist you achieve better outcomes through technology.

Leigh Gibbard
General Manager

Our company's school sector objectives for 2022

- Continue to be the leading supplier to the Ministry of Education
- Provision of enhanced, school focussed services including procurement, managed services and PLD
- Broaden the scope of our services for schools to include curriculum resources that enhance the digital technology curriculum i.e STEAM resources including The Lego Learning System
- Work with suppliers and partners to address the sustainability issues / goals throughout our supply chain.

Committed to modern learning

Our Professional Learning and Development (PLD) team have years of experience helping schools develop future-focused digital learning solutions. At the heart of our PLD programmes is digital fluency.

Special Offer!

Buy a 20 hour block of Professional Learning & Development (PLD) and get an additional 5 hours free! Offer ends 30 April 2022

Digital fluency

Digital Fluency:

- **digital capabilities** – being digitally adept and innovative; able to confidently choose and use digital tools to learn, create, and share
- **digital principles** – demonstrating values when working digitally; being an ethical, respectful, and responsible digital citizen
- **digital literacies** – being discerning and critical; able to locate, understand, organise, evaluate, and adopt digital content.

[Learn more](#)

In our PLD Programmes, we can assist with

- Strategic Planning and Development to ensure that technologies are integrated into effective teaching and learning
- Support with implementation of BYOD
- Digital Fluency support for staff and students
- Integration of the Digital Technologies curriculum content
- STEM and STEAM learning

Our team is Google and Microsoft certified and can provide relevant, authentic, and tailored PLD programmes to meet the specific needs

of your school. We can work with you to put a programme together and currently have a special offer for PLD

We are also a Ministry of Education Accredited PLD provider and can assist schools with their application for Regionally Allocated PLD.

OUTCOMES THROUGH TECHNOLOGY

Secure the future, now

We'll keep all the hard work and important information safe and secure to the highest level.

Cyclone has the people, processes and technology to put a robust security strategy into action. We've worked on cybersecurity for commercial, government and educational organisations.

We'll identify opportunities to improve your security and search for any weaknesses in your governance, policy and processes. We can also lead education and awareness training programmes to strengthen your security culture.

Future-ready security means a stronger, more resilient organisation.

Be prepared for tomorrow by talking to Cyclone today about:

1. Cybersecurity Training: Education and Awareness Programme
2. Governance, Policy and Process Remediation
3. Technical Remediation
